**ESTONIA Vol.1 - A**

## Preface

This is a collection of officers Waffen-SS and Allgemeine-SS who were born in Estonia before World War II. All these officers are part A. of Vol.1 with officers, to date the manuscript consists of about 1000 different officers. Of these 1,000, 49 officers from Estonia with family names begin with A.

Unfortunately, in many cases their service is very thin, and this is mostly due to the fact that most came as volunteers to the Waffen-SS in the summer of 1944 or later. When I write volunteers, it is a truth with modification, in 1943 it was decided that all soldiers from countries other than Germany and those who were described as Volkdeutsche would be into the Waffen-SS, ie a European army that would fight against communism, of course there are exceptions , but the majority came to the Waffen-SS in 1943 and 1944.

Of these 49 officers, only one was a member of the Allgemeine SS and thus received an SS Number and was a member of the party. Other officers were "Waffen-Untersturmführer" or equivalent.

Of these 49 officers, 7 fell or died as a result of injuries sustained in combat. Three died in Soviet captivity. The rest died between the years 1946 and a bit into the 2000s. Many of these officers managed to avoid surrender to the Soviet Union and later emigrated to countries such as Australia, Canada, England and Sweden. However, many of them remained in Estonia and their fate is a book in itself.
